

Víctor Tamayo

I am a web developer so in love with frontend. Every day I dedicate my effort in the correct development of systems that satisfy the needs of the clients in the most optimal way possible.

Web developer

(2 years of experience)

During the last 2 years I have worked as a web developer. Creating reusable components, developing unit tests and delivering functional projects for clients.

- **Development of management systems**

Development of functional systems capable of increasing customer performance through the automation and digitization of processes.

- **Unit Testing**

Development of unit tests with jest, testing library, vitest and postman.

SKILLS

- TypeScript
- Docker
- React
- Angular
- Firebase
